## You can be a light of hope and joy

For 35 years, our community has partnered with Make-A-Wish Alaska and Washington to deliver hope to thousands of children and their families. Much like a bustling baseball stadium, it takes many dedicated players to make wishes come true for children with critical illnesses.

Join us at this virtual event which celebrates the community of people it takes to grant a wish — including our long-time partners the Seattle Mariners, and you! You'll walk away feeling inspired, more connected and with a new perspective of the enduring impact wishes have on all who are involved!

Your support has helped write our history and will define our future. Now, more than ever, wish kids need you! Wishes provide hope, and hope has never been more essential.
