Lyric, 5  
leukemia

Lyric was a very healthy energetic child until her parents noticed she was losing energy quickly and was asking to be carried around due to leg pain. She was taken to see her doctor where they ran some blood work and discovered severe abnormalities. Both of her red and white blood counts were extremely low and that day she was formally diagnosed with Acute Lymphoblastic Leukemia. Lyric immediately began her treatment plan with the placement of her port, and had chemotherapy administered within 48 hours of her diagnosis. She maintained a monthly regimen of chemotherapy until just recently, after finally completing her last treatment and having her port removed!

Lyric is a spunky young girl with a love for Princess Jasmine and The Little Mermaid. While she is outdoors, she enjoys spending time playing with her little sister and their puppy named Panda. Lyric's favorite colors are blue and purple, and she always loves to snack on Lays ruffle chips.

Most of Lyric's wishes included her admiration for the characters on her favorite show. She wished to meet the cast of Monster High, to go to Monster High, or to be a member of Monster High. But ultimately, Lyric decided that her perfect wish is to have L.O.L Surprise Pets! Each of these toys come with fun surprises at each layer that Lyric absolutely adores. Her wish is driven by her hope to open one up and find the pet she has been waiting to add to her collection, the Bat. Lyric is so thrilled to be promised a wish that will bring simple happiness back into her life after a long journey with leukemia.
