## *I wish to go on a fishing adventure*

**Gabriel, 6**  
**muscle cancer**

Gabriel presented swelling at a very young age. After being referred to UC Davis Children's Hospital for an examination and ultrasound, the medical team discovered a tumor and Gabriel underwent surgery to remove it. Following nine months of chemotherapy treatments, Gabriel is now in recovery and in high spirits.

Gabriel is an adventurous little boy that enjoys the great outdoors and is a true 'country boy' at heart! His favorite color is green and his favorite outdoor activity is playing in his pool or riding his bike. He loves sports and enjoys watching the professional bay area baseball and football teams. But his absolute favorite past time is when he gets to spend time fishing with his dad.

When Gabriel discovered he would soon be granted a wish, his imagination ran wild with all of the possibilities. Some of his ideas were to be a Policeman K-9 handler, to meet Spiderman, or to have a shopping spree at Bass Pro Shops. After thinking really hard about what his ultimate wish would be, Gabriel knew deep down that his true wish is to go on a fishing adventure with his family! He imagines going Bass fishing in Florida and seeing all sorts of wildlife. Gabriel looks forward to having the opportunity to enjoy a fishing trip with his family. Having the chance to explore a place Gabriel has never been before, while doing one of his most favorite hobbies is something that he will always remember. Gabriel cannot wait to dive into his fishing adventure in the warm state of Florida!
