

*I wish to have
a virtual
shopping spree*

Sariah, 4
respiratory disorder

Meet Sariah

WISH GRANTED, 2020

Meet Sariah, a spirited 4-year-old who is full of fun! This joyful little girl loves being outside, socializing, and meeting new people. Her family says that you'd think that everyone Sariah comes across is an old friend. She loves school and is happiest when she is the center of attention. Sariah loves watching Disney movies, but she stops everything she is doing when the show Mickey Mouse Clubhouse comes on.

Sariah exudes joy and love to those around her, despite dealing with a respiratory disorder since birth. Sariah requires a tracheostomy tube to help her breathe and has a gastronomy button to receive the food and medicine she needs to grow stronger. Her current treatment includes inhalant medications, oxygen, and humidifier use daily, while she also attends weekly physical, occupational, speech, and feeding therapy. To help make Sariah's daily life more comfortable and fun, her family agreed that Sariah would be thrilled with a virtual shopping spree wish!

Sariah's socially distanced wish reveal took place in the comfort of her own home with Make-A-Wish staff, volunteers, and her family members in attendance. Sariah was filled with joy when she came outside to see all her shopping spree items that included Minnie Mouse themed toys, books for continued learning, a pink piano, and more! Sariah was particularly enamored with her Minnie Mouse balloons and new tricycle, which will help with Sariah's physical therapy. Sariah's adoptive great-aunt, Jimetra, says Sariah will be happily occupied for weeks to come playing with all her new toys.
