

Inspiring kids to have an impact in their community, the **Kids For Wish Kids®** program engages students, schools, and youth organizations in philanthropy and service activities in partnership with Make-A-Wish® Massachusetts and Rhode Island. The program encourages community service, volunteerism, teamwork, and gives students hands-on experience fundraising to help create life-changing wishes for children with critical illnesses. This World Wish Month, we invite you to get involved and make a difference while empowering students with the opportunity to lead and make significant impact in their school and community.
