

*I wish to go to a
My Chemical
Romance concert*

Giada, 15
lymphoma

Meet Giada

WISH GRANTED, 2025

Giada, a sweet and sassy 13-year-old often described as the perfect child, faced Stage 4 Lymphoma with remarkable resilience. Despite the challenges of bi-weekly chemotherapy, a recent hospitalization for pneumonia, and undergoing port placement surgery, she met every obstacle with strength and grace. Though the treatments brought nausea and stress, her spirit remained unshaken.

Throughout her journey, music was Giada's sanctuary. Especially the songs of her favorite band, My Chemical Romance. Their music offered her emotional comfort during the toughest moments, and she often dreamed of seeing them live. Her greatest wish was simple yet powerful: to attend a My Chemical Romance concert with her mom, dad, and brother by her side. The thought of singing along to her favorite songs, surrounded by her loved ones, filled her with joy and anticipation. Grand Sierra Resort hosted her wish reveal and even had one of her favorite local bands, WormShot, perform! Thanks to Make-A-Wish Nevada, Giada's dream became a reality. The night of the concert was unforgettable. Giada was able to meet her favorite band and leave her medical worries behind for one night.
