# WISH KID SPOTLIGHT – AUSTYNN

From the moment she was born, Austynn has shown the world just how brave she is. **Diagnosed with Noonan syndrome and a heart condition that requires daily medication, she has faced more in her young life than most ever will.** Still, Austynn approaches each day with quiet strength, independence, and a sweet determination all her own.

When it came time to choose her wish, the answer was simple. Austynn loves slides and swings, and she loves having space to just be herself. **Her wish playground gives her a place to play freely, for hours at a time, in a space that is entirely hers.** When asked why she has a playground, Austynn proudly says it is because of her heart, because she was brave. This wish is a lasting reminder of everything she has overcome and a joyful place where her courage and independence can shine for years to come.
